

\*The two items shown above are examples of customized products.

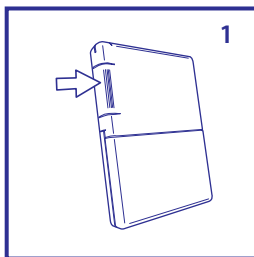

## Make "Opening" More Fun

How can we make opening something more fun? Under this concept, we developed a card case.

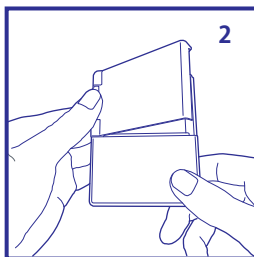

We designed the case so that opening it would be hard to figure out; consequently, the case is quite a unique item that is definitely not for everybody. The feeling of surprise upon opening the case and the comforting click of the lid are part of the product's appeal. Available in a variety of colors, this product can be customized and made your own.

Perfect for storing mints or other tablet-shaped items.

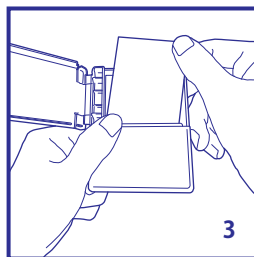

### How to use

1  
Hold the case with both hands as shown in Picture 2. Push and slide the part of

2  
If you push this part of the case, the lid to the upper part of the case will open to the left.

3  
Open the lid wide and remove the cards inside.

\*When closing the lid, be sure to press firmly until you hear a click.

## PUSH PLUS+

### Card Case

Material: Polypropylene  
 Upper temperature limit: 100°C
